

Alan Smith,

Thank you for using the Tracsoft Website Cost Calculator! Below is a personalized estimate based on the details you provided. This document is designed to help you understand the scope of your project and give you a clear idea of what to expect as you plan your new website development.

Based on your inputs, we've generated an estimated cost range for your website project. This estimate is intended to guide your initial discussions with a developer and help you outline the key components of your project.

Number of Pages: You've selected to have **11-50** pages on your website. This number will impact both the design complexity and the amount of content needed. A larger number of pages typically requires more time for design and development, ensuring each page is cohesive and aligns with your brand's goals.

Design Options: You've chosen **Stylized**. This will determine the visual style and user experience of your website. Whether you prefer a simple, clean design or a more complex, custom approach, our team will ensure your site is both visually appealing and functional.

Copywriting Options: For your content, you've selected **1-5 pages**. Quality copywriting is crucial for engaging visitors and converting leads. Our team can provide professional copy that reflects your brand voice and effectively communicates your message.

eCommerce Options: You've indicated **No** regarding eCommerce functionality. If eCommerce is part of your project, we will integrate a secure, user-friendly platform that supports your product range and simplifies the shopping experience for your customers.

Integration Options: You've chosen to include **None**. Integrating third-party services, such as CRM systems, email marketing tools, or social media, will enhance your website's functionality and streamline your business operations.

SEO Options: For SEO, you've selected **1-10**. Effective SEO is key to ensuring your website is easily found by search engines and ranks well for relevant keywords. Our SEO strategies will help

drive traffic to your site and increase visibility.

Estimated: Based on the options you selected, the following range reflects the scope of work involved and provides an expectation for your budget: **Estimated Price Range: \$7,600 - \$8,500.**

Next Steps: We're excited to help you bring your vision to life! The next step is to [schedule a meeting with our team](#) to discuss your project in more detail. During this consultation, we'll refine the estimate, answer any questions you may have, and outline the timeline for your project.

Schedule Your Consultation: To move forward, simply [click here to schedule your meeting](#) with us. We look forward to partnering with you to create a website that not only meets your needs but also exceeds your expectations.
